	Organization	Name of Innovation	Description of the Innovation	Website
1	access2innovation	Sky Watch Viewworld Bluetown Icono	Access2innovation is an innovation network that brings together civil society organizations, businesses, public institutions and the academic world in new collaborations, creating new sustainable solutions and business models targeting developing countries and relief aid. Since 2007 access2innovation has initiated more than 30 initiatives bringing new viable solutions to the people in most of need. During the World Humanitarian Summit the access2innovation network will present four of the developed solutions: Sky Watch; ViewWorld; Bluetown and ICONO.	http://www.access2innovation.com/
2	access2innovation			
3	AFAD	AFKEN and AFAD Card	AFKEN is a dijital platform to facilitate the management of temporary cities. AFADKART is an ATM card to allow disaster victims to take care of their own shopping needs.	https://www.afad.gov.tr/tr/IcerikDetay.aspx?ID=318&IcerikID=3093
4	AFAD	Turkey Disaster Data Bank-TABB	The Turkey Disaster Bank aims to build capacity to reduce the damages of disasters and to ensure disaster preparadness with a broad perspective. It provides a user friendly, web based disaster data bank for decision makers, operators and disaster researchers to access information and to collaborate in the event of disasters occurring in Turkey.	https://tabb.afad.gov.tr/
5	AFAD	Disaster Management and Decision Support System-AYDES	The Disaster Management and Decision Support System (AYDES) is a GIS supported, web based joint platform that enables integrated management and monitoring of disaster management processes (preparation, response, recovery and risk reduction).	https://aydes.afad.gov.tr/aydes/login/login.jsf
6	African Union Commission	Innovative humanitarian solutions in Africa	The African Union Commission will present aseries of innovative contributions to effective delivery of humanitarian relief and assistance such as: The African Union Support to the Ebola Outbreak in West Africa (ASEOWA), Humanitarian Action and Natural Disaster Support (HANDS) and the Africa Disaster Managers Platform (ADMAP).	http://www.au.int/en/commission
7	ayzh	Health and Hygiene Kits for Women and Newborns	Simple, essential, low-cost "kit style" health products designed to meet the unique needs of women in resource-poor settings, targeting the reproductive, maternal, newborn, child and adolescent (RMNCH+A) continuum.	http://www.ayzh.com/
8	Buddhist Tzu Chi Foundation	Faith-Based Innovations	The two product innovations developed by Tzu Chi and its partners, the Eco-Blanket and the Multipurpose Foldable Bed, were created with the principles of dignity, compassion, and humanitarian values, as well as sustainability and environmental protection, where not only do the development of the materials reduce waste and bring environmental awareness, they also are distributed at no cost during the organization's humanitarian efforts around the world.	http://www.tzuchi.org/
9	Bushido Advisory	Virtual training environments and simulated training materials (3D).	Virtual training environments and simulated training materials (3D) for engaging and more effective training: compliance with the laws of war, law enforcement, situations of emergencies, natural disasters, safety of personnel, access to those in need, etc.	http://www.bushido-advisory.com/
10	CBM International	Hands-on Tool: inclusive Humanitarian Action	The Hands-on Tool concept is a web based application (and in the future also a mobile app) for humanitarian practitioners to use in the field and contains hands-on tips and practical solutions for on the spot guidance on inclusion of disability during an emergency.	http://www.cbm.org/
11	Change Assembly Inc.	Factr	A platform for monitoring and distributing real-time information to support humanitarian communities for better preparedness and response.	https://factr.com/
12	COOPI - COOPERAZIONE INTERNAZIONALE	SET4food Decision Support System (DSS) for energy technologies for food utilization in camps and informal settlements	The SET4food Decision Support System (DSS) is an online tool aiming at the preliminary selection of the most appropriate technologies for food cooking and preservation, power generation and water pumping and purification, within a displacement context.	http://old.coopi.org/en/home/
13	d.light	d.light solar energy products	d.light provides 5 solar energy solutions (d.light A1, S2, S20, S350, financed D30 solar home system) for households and small businesses that transform the way people use and pay for energy.	http://www.dlight.com/
14	DayOne Response Inc.	DayOne Response Inc.	The DayOne Waterbag™ is an easily deployable, lightweight, no-tech, household-level solution for the easy collection, quick treatment, convenient transport, and effective storage of water in humanitarian contexts.	https://dayoneresponse.com/
15	Department for International Development	Amplify Open Innovation for Development and the Humanitarian Education Accelerator	Using open innovation and human-centered design support to prototype community based solutions that improve education and expand learning opportunities for refugees around the world - a follow on programme will create opportunities, and provide funding, to grow these humanitarian education initiatives.	https://www.gov.uk/government/organisations/department-for-international-development
16	Deutsche Post DHL Group	Resilience360	DHL Resilience360 is a cloud-based platform that empowers organizations to monitor and manage risks in their global network of people and assets, by identifying risk hotspots and providing near-real time alerts in case of disasters, to ensure resiliency.	http://www.dpdhl.com/en.html
17	Devex	Devex Video Interviewing	Devex is using its expertise as the leading provider of recruiting services to the international development community to be the exclusive provider of Video Interviewing technology from HireVue to donor agencies, development consulting firms, NGOs, and other development organizations.	https://www.devex.com/en/video-interviewing
18	e3e Monitor Association	e3e Monitor	Open science empowering civilians and humanitarian workers to effective response to use of explosives.	http://theport.ch/e3e/

19	Elva Community Engagement	Elva	Putting beneficiaries in the driving seat: Citizen-driven data collection for project design, implementation, monitoring and evaluation	https://elva.org/
20	Endless Computers	Endless Computers	The computer revolution is one of the greatest revolutions in human history. And yet, 75% of the world still lives outside of its reach, struggling to fulfill the most basic of needs. Our mission is to provide everyone access to the opportunities that computing can offer, by building full desktop computers with fast and easy software.	https://endlessm.com/
21	Ericsson	ICT for peacebuilding among youth	This innovation brings access to ICT tools and a new model for training that promote education, vocational skills, peace-building and socio-economic development among youth, in fragile or conflict environments.	http://www.ericsson.com/
22	facebook			www.facebook.com
23	Faircap	Open Water Technologies	Faircap is a small, portable, low cost, antibacterial water filter that can be screwed into a standard plastic soda bottle and purify water from any source, from a lake, river, stream, water well or rain. The basic technology can be scaled up from the personal level to a family and even a village.	http://faircap.org/
24	FAMOCO	Digitalization of food distribution	Through FAMOCO technology, safe and accurate voucher transfers to beneficiaries are optimized and feedback is provided via an off-the-shelf solution to digitalize food assistance vouchers.	http://www.famoco.com/
25	Field Ready	Field Ready	Making humanitarian supplies directly in the field thereby improving supply chain logistics.	http://www.fieldready.org/
26	Fondation Terre des hommes Lausanne	Integrated-eDiagnosis Approach	Integrated e-Diagnostic Approach (IeDA) is a set of integrated M-Health tools designed to improve primary health care quality and accountability with automated clinical guidance and distant supervision, monitoring and performance management. It is adapted to harsh or low income contexts	https://www.tdh.ch/en
27	Garanti Wearing Composite Technology Industry and Trade Inc.	Flameless Heating Chemical for heating of ready to eat meals in outdoor evironments and sterilized ready to eat meals.	Unifood Flameless Heater Chemical is an oudoor heating solution in all weather conditions. Unifood Sterilized Ready Meals can stay 2 years in ambient conditions.	www.uyargroup.com.tr
28	Global Alliance for Clean Cookstoves, United Nations Foundation	Clean and fuel-efficient cookstoves	Cleaner, more fuel-efficient cookstoves can improve health, livelihoods, safety, and environment for crisis-affected populations, many of whom struggle to access adequate fuel (either through purchase or collection) for cooking their daily meals.	http://cleancookstoves.org/
29	Global Humanitarian Lab (GHL)	Global Humanitarian Lab (GHL)	We are jointly launching the Global Humanitarian Lab (GHL). GHL is a partnership of leading humanitarian organizations, innovation networks, think tanks, technology entrepreneurs, private sector funds, and governments. GHL will address barriers to user driven innovation and systemic issues preventing the scaling of innovations in the humanitarian sector through seeding and connecting a series of incubator, Fab Lab, and accelerator networks.	http://www.globalhumanitarianlab.org
30	GlobalMedic	3 innovations (1) rainfresh ceramic point of use water purification unit (2) compressed earth block housing (3) unmanned aerial vehicles	(1) Point of use water purification units are a game changer in ensuring families have water security post crisis. (2) Compressed earth block homes shift the purchases of building materials away from large suppliers and direct those funds to displaced beneficiaries participating in the building of their new homes. (3) Using small unmanned aerial vehicles provides real time intelligence and information to responding aid agencies about crisis conditions, road conditions, population movements and other situational awareness indicators.	http://www.globalmedic.ca/
31	GOODdler	"Gift Registry" for Charities and Causes	Gooddler is a goods donations technology, providing charitable organizations working on humanitarian aid and sustainable development with tools to combat poverty and respond to humanitarian emergencies in the most effective way.	https://gooddler.com/
32	Government of Turkey, Ministry of Interior, Department for Migration Management (DGMM)	YİMER (Foreigners Communication Centre) Alo-157	YIMER is a call center which carries out the functions of a hotline and an emergency call for victims of human trafficking; and through which foreigners in Turkey can find answers to all their questions which fall under the scope of the Directorate General for Migration Management, regarding issues such as visa, residence, international protection, temporary protection etc.	http://www.yimer.gov.tr/
33	Groupe URD	Sigmah	Sigmah is a collective open-source initiative to strengthen project information management capacity in the international aid sector.	http://www.urd.org/?lang=en
34	Hala Systems	Sentry	Sentry is an early warning system for barrel bombs and other aerial attacks against innocent civilians in Syria.	http://halasystems.com/
35	Helperbit	Helperbit, Natural Disaster P2P Aid	Helperbit is a P2P Natural Disaster aid Platform that faces real-world problems using blockchain technology.	http://www.helperbit.com/
36	Hewlett Packard Enterprise	HP HAVEN advanced analytics and Foresight Situational Awareness, Visual Survey Platform	HPE Big Data Advanced Analytics and data collection solutions to improve global preparedness and effective field response in crisis and emergency situation. How to use Big Data Innovation to measure impact and assess needs in the field. The Visual Survey Platform (VSP) allows field workers to gather information remotely using mobile devices in an accurate and secure way leading to instant decision making. It can constitute a rich data source of the HP HAVEN advanced analytics and Foresight Situational Awareness described above.	https://www.hpe.com

37	HPPP	Humanitarian Private Sector Partnership Platform (HPPP) http//hppp.online	The HPPP initiative is a platform to link and leverage existing business and humanitarian coordination/networking fora. It provides a new space for open and facilitated consultation, planning and actual joint action. It aims at bridging the "divide" between private sector and humanitarian/ government actors, addressing information gaps, coordination challenges, and also to provide a space to discuss, plan and implement jointly best practices, fostering innovation in approaches, tools, technologies.	http://hppp.online
38	Humanitarian OpenStreetMap Team	OpenAerialMap	OpenAerialMap brings openly licensed aerial imagery from satellites and UAVs/drones together in a single, easy to search and access web platform for faster decision-making post disaster.	https://hotosm.org/
39	InDro Robotics Inc	InDro Robotics UAV Technology	Production, adaptation and deployment of UAVs for national, provincial and local authorities and other national actors, including training and mentoring in UAV deployment and collaboration and in establishment of deployment policies, protocols and standards.	http://www.indrorobotics.ca/
40	Institute of International Humanitarian Affairs at Fordham University	High Tech Humanitarians	A global web-based open source lab to facilitate and promote collaborative digital fabrication for humanitarian innovation.	https://www.fordham.edu/info/23454/institute_of_international_humanitarian_affairs
41	International Federation of Red Cross and Red Crescent Societies	Menstrual Hygiene Management in Emergencies	The IFRC project on menstrual hygiene management (MHM) in emergencies aims to improve the dignity of women and adolescent girls by introducing the inclusion of MHM kits as a specficic humanitarian relief item.	http://www.ifrc.org/
42	International Federation of Red Cross and Red Crescent Societies	Mobilising the Power of Humanity to Innovate	An interactive narrative of community driven innovations from around the world of the Red Cross and Red Crescent, where participants can also engage in real time with a range of communities to identify humanitarian challenges and propose solutions. The exhibition is a celebration of the power of communities driving their own innovation	http://www.ifrc.org/
43	Joint IDP Profiling Service (JIPS)	Promoting shared understanding and use of displacement data	Enabling access to and collaborative analysis of displacement data promotes its shared understanding and wider use.	http://www.jips.org/en/home
44	KnowledgePoint	KnowledgePoint	KnowledgePoint uses the power of networks to help organisations solve urgent questions; it is a collaborative process and platform for expert advice, meeting demand for reliable and timely information	http://www.knowledgepoint.co.uk/#home
45	MasterCard Inc	MasterCard Aid Network	MasterCard Aid Network is a commercial technology solution designed to streamline aid distribution and help humanitarian organizations respond to impacted populations quickly and efficiently, both for short-term disaster relief and for ongoing, long-term developmental support programs.	https://www.mastercard.us/en-us.html
46	Medical Mission Institute	MEDBOX - The Aid Library	MEDBOX is an innovative online library providing a quality collection of all relevant, open source-documents for hands-on health care in humanitarian action worldwide.	http://english.medmissio.de/
47	Microsoft/UNDP	Cash for Work for Nepal	Technology enabling total transparency and quick decisions on providing support to demolition work in remote villages.	http://www.np.undp.org/content/nepal/en/home/presscenter/articles/2015/06/24/smartphones-and-shovels-how-the-technology-is-transforming-undp-s-emergency-employment-system/
48	Ministry for Foreign Affairs of Finland	The Smart Refugee Camps Innovation Concept	The project looks at refugee camps as cities and creates concepts to promote the development of urban structures through strengthening of inclusivity, resilience, safety, sustainability and connectivity within camps.	http://formin.finland.fi/public/default.aspx?culture=en-US&contentlan=2
49	MMS Modular and Mobile Systems Ind. and Trade co. Ltd.	Double Storey Living Units	Quick installation of doube storey housing units at lower cost	http://www.standartgrup.com/
50	Motivation Charitable Trust	Emergency Response Wheelchair Package	Emergency response wheelchair package to ensure the rapid and appropriate provision of emergency wheelchairs to injured and disabled people in humanitarian crises.	http://www.motivation.org.uk/
51	National Disaster Management Authority (NDMA) Pakistan	WATAN CARD PROJECT	Cashless financial compensation to the 2010 flood victims, through real time biometric verifications and integration with financial institutions, under the overall coordination of National Disaster Management System through NDMA. Project/Innovation executed Cashless financial grant to 3.9 Million flood affected families which were successfully targeted and biometrically verified through National Citizen Database.	http://www.ndma.gov.pk/site/
52	Neoenerji	Hybrid rooftop solar power systems	Neoenerji provides a rooftop hybrid solar power system for electricity generation in environments where electricity grids are unavailable or unreliable. The system can link up with generators or function independently ensuring seamless nonstop power generation by reducing fuel consumption and relying on solar power exclusively.	http://neoenerji.com/en/

53	NOREPS – the Norwegian Emergency Preparedness System (administered by Innovation Norway and financed by the Norwegian Ministry of Foreign Affairs)	Life-Saving UAV Technologies	The Norwegian Emergency Preparedness System, NOREPS, supports the UN and international humanitarian organizations in their transformation through innovation. By using examples from the field, NOREPS will illustrate the effect of innovation partnership across disciplines and how collaboration between humanitarian operators and technological innovators contribute to realizing the digital and green shift in humanitarian operations.	http://www.innovasjonnorge.no/en/start-page/noreps/ http://pdrf.org/
54	Ona	Ona - Real-time data collection, management and analysis platform	The Ona platform is a data collection, management and analysis platform that allows humanitarian actors to easily collect, securely share and make sense of data from the field.	https://ona.io/home/
55	Open Garden Inc	Firechat	A mobile application that creates a resilient peer-to-peer network between mobile phones to allow communications even when Internet access and cellular networks are unavailable. Our partners are organisations like Department of Science and Technology - Philippine Government and OCHA in Manila. We have been working with those organisations for the past year to demonstrate the potential of FireChat as a powerful tool in disaster preparedness and response.	http://opengarden.com/
56	Panzi Foundation	Healing through Song: Music Therapy for Survivors and Vulnerable Communities	Working in tandem with a trained psychologist and music producer, survivors of sexual violence and vulnerable community members begin to heal together by writing, recording, and professionally producing songs about their experiences.	http://www.panzifoundation.org/what-we-do/
57	Philippine Disaster Resilience Foundation (PDRF)	Philippine Disaster Resilience Foundation (PDRF)	The Philippine Disaster Resilience Foundation (PDRF) is the country's major private sector vehicle and coordinator for disaster management that links government agencies, civil society groups and local government units, which is an embodiment of solidarity that transcends business competition and promotes the common vision to build a strong, resilient and disaster-ready Philippines.	
58	Planet Labs	Planet Labs	Planet Labs is deploying the largest constellation of Earth-observation satellites in history to image the entire Earth, every day, and make change visible, accessible and actionable for those who need it most.	https://www.planet.com/
59	Pragya	Dynamic Risk & Response Information System (DRRIS) - for the Last Mile	The Dynamic Risk & Response Information System (DRRIS), particularly designed for the last-mile, is a process of dynamic risk governance and disaster response, to be delivered by an improved structure that spans communities, government and responders, towards collaborative disaster information management, risk reduction co-decision and multi-stakeholder response coordination.	http://www.pragya.org/
60	PricewaterhouseCoopers (PwC)	Global x Assessor	Strengthening trust and transparency between the donor community and the grants' recipients through an online platform that provides the humanitarian actors with relevant, accurate and valid information	http://www.pwc.com/
61	PRS-Telecom BV - Global Donation Services	Global Donation Services	Global Donation Services is a fundraising service that allows secure and easy transfer of donations to NGO, charitable organizations and SMEs through one global service telephone number.	http://prs-telecom.com/
62	Qatar Computing Research Institute, Hamad bin Khalifa University (Qatar Foundation)	Artificial Intelligence for Digital Response (AIDR) and MicroMappers: Combining Machine Learning and Human Computing for Impact Informatics	AIDR (Artificial Intelligence for Digital Response) and MicroMappers combines machine learning and human computing to create information insights which can be used by humanitarian decision-makers for real-time application within the organizational information product suite.	https://www.qcri.org/about-qcri
63	Real Relief	Lifeshelter	A new innovative, insulated, fire-safe, snowload-resistant and lockable shelter solution, that is scalable, environmental friendly and used for long term solution.	http://www.realreliefway.com/
64	Red Rose	Red Rose Emergency Cash Kit	Red Roses has created an Emergency cash kit fully deployable within 24 hours of an emergency.	https://www.redrosecps.com/
65	Refugee Open Ware (ROW) / 3Dmena Social Innovation (implementation partner in Jordan)	Fab Lab Amman	Fab Lab Amman is a hardware incubator, makerspace, advanced training center and co-working space focused on youth employment generation and entrepreneurship.	http://www.row3d.org/
66	Rumman Grup Ins. Mak. San. ve Tic. Ltd. Sti	Mobile Clinic Vehicle Project	Mobile clinics adapted to desert environments.	
67	Save the Baby	Save the Baby application	We create digitized information system related to maternal and child health that enable underserved mothers can access their health data by using mobile phone, even during a disaster.	https://vimeo.com/94754493
68	SOLLUNE	SOLLUNE	Our innovation is a range of products based on phosphorescence and innovative textiles providing a perpetual and sustainable minimal public self-illumination in emergency humanitarian situations with zero cost of installation, deployment or maintenance.	http://www.sollune.com/

69	sQuid	sQuid Tablet	Android based near field communcation (NFC)-enabled tablet and Apps for Student Registration, Attendance Monitoring and Payments.	https://www.squidcard.com/
70	Technical University Berlin	Ingenium - Demand based Development Cooperation"	Our project aims to provide a communication platform where affected people, governmental institutions and NGOs can share information and voice their needs following natural disasters.	http://www.tu-berlin.de/
71	Teknom Kimya I.C.	Smart Water Treatment Technologies		http://www.teknomkimya.com.tr/
72	TELMA FOUNDATION	Private Sector Humanitarian Platform Madagascar	The Private Sector Humanitarian platform has been put in place in order to enhance the efficiency of the humanitarian preparedness and response to emergency situation all over the country, by involving the private sector upstream and not only asking them for money at the last minute. The idea is to optimize the use of existing services, equipment, financial, technical and human resources from the private sector, locally present all over the country: Before sending international help equipment, use first what is available locally through the different companies. Everybody has to win from that: People who will be rescued earlier, Humanitarian actors who will be able to decide more efficiently what is needed and where; companies, by the promotion of their corporate social responsibility; and the Humanitarian sector in general by being more efficient.	http://www.madonline.com/telma-foundation-its-website-goes-on-line/?lang=en
73	THE Port association	THE Port - humanitarian technology hackathon (also known as problem solving workshops)	Bringing together interdisciplinary teams for rapid humanitarian innovation co-creation sprints	http://theport.ch/
74	The Start Network (hosted by Save the Children UK)	Addressing the Challenges of our Common Humanity through Collective Ownership of Disaster Risk Financing	The Start Network has a collective approach to disaster risk financing that uses a range of new financial products: a rapid response multi-donor pooled fund for off-the-radar, smaller scale humanitarian crises (the Start Fund); a credit facility; and parametric insurance for more effective humanitarian response and anticipation.	http://www.startnetwork.org/
75	The UPS Foundation	Sağlam Kobi	Sağlam Kobi is a platform that provides disaster preparedness and awareness campaigns, trainings, and an online preparedness toolkit for small and medium size enterprises (SMEs) in Turkey while also engaging the private and public sectors and civil society organizations to collaborate together.	http://sustainability.ups.com/
76	Theirworld	360 degree "Safe Schools: Nepal" film	The film "Safe Schools: Nepal" captures 360-degree video and audio from Nepal which transports and immerses the viewer into the countries incredible landscape, to experience the earthquake's continued first hand impact and to hear the challenges children face getting to school, the shocking condition of the temporary schools and the heartbreaking stories of children who have been left out of school.	http://www.theirworld.org/
77	Translators without Borders	Words of Relief Crisis Translation Network	Translators Without Borders, Words of Relief Crisis Network is a global translation and localization innovation that leverages both human and technological resources to facilitate and improve communication among victims, field workers, and relief agencies before, during and after crises.	http://translatorswithoutborders.org/
78	TTC Mobile	Nomads Telecom	Nomads Telecom: the mobile provider for refugees focusing on affordable data across countries and real-time interaction with other refugees and humanitarian aid organisations.	http://ttcmobile.com/
79	Turkcell	My Dream Companion	My Dream Companion is a service providing visually disabled individuals audio description for movies, indoor navigation in shoping malls, daily news, colums', audio books and trainings, magazines, information and location based services. The main aim of the service is to supply more active and independent social life to visually disabled individuals.	http://s.turkcell.com.tr/hakkimizda/en/yatirimciiliskileri/InvestorPressReleaseLibrary/Turkcell_MyDreamCompanion_Award.pdf
80	TUSAS - Turkish Aerospace Industry I.C.	ANKA Unmanned Aerial System	ANKA, advanced Medium Altitude Long Endurance (MALE) class Unmanned Aerial System, performs day and night, all-weather Intelligence, Surveillance, and Reconnaissance (ISR) missions to support humanitarin organizations for better visibilty.	https://www.tai.com.tr/en/project/anka-medium-altitude-long-endurance-uav-system
81	UNDP	Foresight: Strategic Planning to Strengthen Resilience	UNDP works with partners to support decision and policymakers in developing countries to maximise the strengths and benefits of national foresight programmes for strategic policymaking, especially in the context of preparedness for natural disasters, climate change and political instability.	http://www.undp.org/content/undp/en/home/librarypage/capacity-building/global-centre-for-public-service-excellence/foresightmanual.html
82	UNFPA	Protection Related Information Management (Primero). and Gender-Based Violence Information Management System (GBVIMS+)	Primero is an open-source software application that helps partners securely collect, store, manage, and share data for protection-related incident monitoring and case management in humanitarian settings.	http://www.unfpa.org/
83	UNICEF	RapidPro	RapidPro is a platform that allows to visually build scalable mobile-based applications from anywhere in the world, powering the connection between government leaders and communities on issues such as health, education, emergencies and many more.	http://www.unicef.org/
84	United Nations World Food Programme	Accelerating Innovation for a Zero Hunger World	The Innovation Accelerator supports and scales-up high-impact and transformative innovation projects to help WFP achieve its goal of Zero Hunger.	http://www.wfp.org/innovation

85	UNOCHA	Big Data analytics to support humanitarian action and KoBo Toolbox	Game changing application of big data analytics using social media to inform, improve, guide and re-calibrate humanitarian action in a complex, insecure, and highly volatile environment. Digital data collection with KoBoToolbox	www.unocha.org
86	UNOCHA	Humanitarian Exchange Language (HXL) and Humanitarian ID	The Humanitarian Exchange Language and the Humanitarian DP provide a simple, community standard and service infrastructure for making humanitarian data more interoperable.	http://www.unocha.org/
87	Uphold	Uphold, a global cloud-based money platform	Uphold is the world's most inclusive and transparent global financial services platform, enabling individuals, businesses and NGOs to hold money and make payments across borders and currencies instantly, securely and for free.	https://uphold.com/
88	Vestel Defence Industry	KAREYEL UAV Designs	Tactical UAVs have been in use for long time. But they do not have redundant design features. KARAYEL can be considered as the most reliable UAV in its class with its triple redundant FCS, distributed avionics architecture and its design for enabling flying in diverse geographical locations	http://www.vestelsavunma.com/
89	War Child UK	Can't wait to learn - E-learning platforms supporting children in conflict zones	In response to the urgent need for children in emergencies to access quality education, Can't Wait to Learn builds on evidence-based concepts successfully piloted in Sudan (e-Learning Sudan), and will provide effective educative games for mathematics, literacy, and psychosocial support deployed via tablets to children affected by conflict, based on Ministry of Education formal and non-formal curricula.	https://www.warchild.org.uk/
90	what3words	what3words	what3words is a location reference system based on a global grid of 57 trillion 3mx3m squares; each square has been pre-assigned a unique 3 word address.	http://what3words.com/
91	WHO	Early Warning and Response System (EWARS) in a box	EWARS in a box is a kit of ruggedized, field-ready equipment needed to establish disease surveillance or response activities in field settings without reliable internet or electricity.	http://www.who.int/en/
92	World Food Programme	Digital Humanitarian Supply Chain: Innovative Solutions to Humanitarian Challenges	WFP and UNHCR propose to show collaborative practices in providing humanitarian services through cash-based interventions, and portray new digital processes and technologies such as beneficiary registration, biometric technologies, smart cards and cash cards, among others, in use in the field today.	http://www.wfp.org/
93	World Vision	ONE-Syria Strategy Impact Monitoring (ONE-SIM)	Utilising open source technologies and statistical modelling to innovate the monitoring of impact of humanitarian aid.	http://www.wvi.org/syria-crisis
94	World Vision International	Going the Extra Mile: LMMS – One Card, One System World Vision International's Innovation Lab in Nepal: Creating the conditions for humanitarian innovation	a stand-alone system developed by WVI that digitises beneficiary registration, verification, distribution planning and management, monitoring and reporting with the ability to integrate with third party applications. The Innovation Lab, established as part of World Vision International's Nepal Earthquake Response, is a place for new ideas, products, technologies, and processes to be developed and tested towards the goal of achieving breakthroughs in disaster response, both in Nepal's recovery from earthquake and across the humanitarian sector more broadly.	http://www.wvi.org/
95	Worldwide Human Geography Data Working Group and Affiliated Partners	Human Security Taxonomy	A carefully ordered and vetted list that allows a community to identify the nodes and systems that make their community work, identify the risks that may surround them and, between the two, prepare mitigating strategies to protect themselves, their economy, and their infrastructure.	https://wwhgd.org/
