| ISOCARP's Strategic / Technical Assistance Teams modality will be strengthened to provide urban planning services as part of emergency response. | Capacity | Change People's Lives: From Delivering Aid to Ending Need | 203006 |

Core Commitments

Change People's Lives: From Delivering Aid to Ending Need

CHANGING PEOPLE'S LIVES - FROM DELIVERING AID TO ENDING NEED

- Commit to a new way of working that meets people's immediate humanitarian needs, while at the same time reducing risk and vulnerability over multiple years through the achievement of collective outcomes. To achieve this, commit to the following: a) Anticipate, Do Not Wait: to invest in risk analysis and to incentivize early action in order to minimize the impact and frequency of known risks and hazards on people. b) Reinforce, Do Not Replace: to support and invest in local, national and regional leadership, capacity strengthening and response systems, avoiding duplicative international mechanisms wherever possible. c) Preserve and retain emergency capacity: to deliver predictable and flexible urgent and life-saving assistance and protection in accordance with humanitarian principles. d) Transcend Humanitarian-Development Divides: work together, toward collective outcomes that ensure humanitarian needs are met, while at the same time reducing risk and vulnerability over multiple years and based on the comparative advantage of a diverse range of actors. The primacy of humanitarian principles will continue to underpin humanitarian action.

NATURAL DISASTERS AND CLIMATE CHANGE: MANAGING RISKS & CRISES DIFFERENTLY

- Commit to reinforce national and local leadership and capacities in managing disaster and climate-related risks through strengthened preparedness and predictable response and recovery arrangements.
- Commit to improve the understanding, anticipation and preparedness for disaster and climate-related risks by investing in data, analysis and early warning, and developing evidence-based decision-making processes that result in early action.
