

Global
Preparedness
Partnership

The Global Preparedness Partnership is an innovative approach for supporting risk-prone countries to be better prepared for responding to, and recovering from disasters caused by natural hazards.

Over the past 20 years natural hazards have:

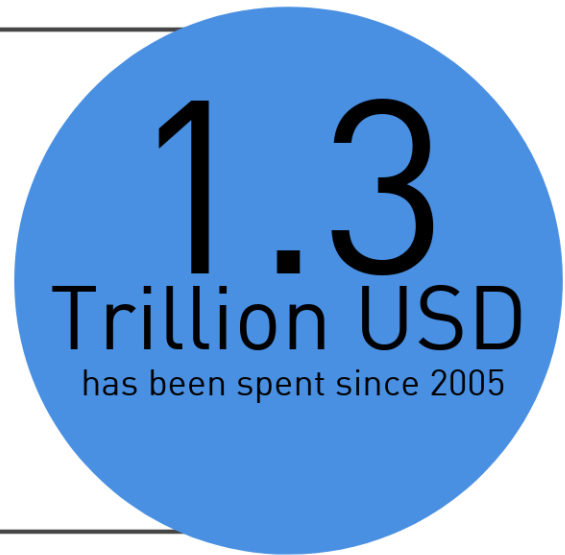

Claimed
1,35 million
lives

Affected 218
million
people every
year

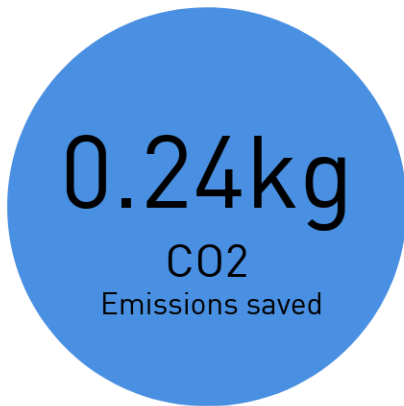

Had devastating
effects on socio-
economic
development

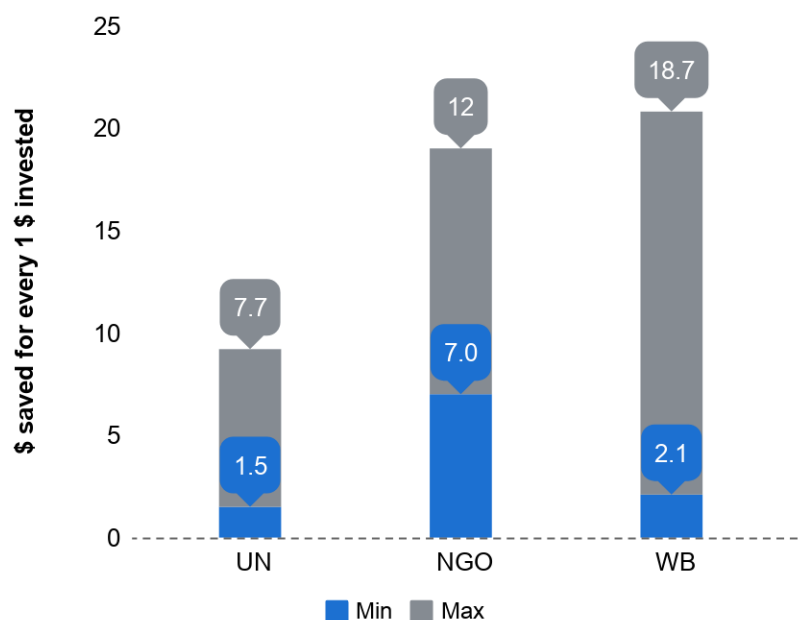

For every \$ 1 invested in emergency preparedness the benefits are ...

✓ ENVIRONMENTAL

✓ ECONOMIC

Savings generated by preparedness

✓ TIME SAVING

3-14
Days saved in
response

*Figures based on reports from UNDP, PricewaterhouseCoopers (2017), Action Against Hunger (2017) and World Bank Ready2Respond (R2R)
