4A Reinforce, do not replace, national and local systems

Core Commitments

To achieve this, commit to the following: a) Anticipate, Do Not Wait: to invest in risk analysis and to incentivize early action in order to minimize the impact and frequency of known risks and hazards on people. b) Reinforce, Do Not Replace: to support and invest in local, national and regional leadership, capacity strengthening and response systems, avoiding duplicative international mechanisms wherever possible. c) Preserve and retain emergency capacity: to deliver predictable and flexible urgent and life-saving assistance and protection in accordance with humanitarian principles. d) Transcend Humanitarian-Development Divides: work together, toward collective outcomes that ensure humanitarian needs are met, while at the same time reducing risk and vulnerability over multiple years and based on the comparative advantage of a diverse range of actors. The primacy of humanitarian principles will continue to underpin humanitarian action.	Change People's Lives: From Delivering Aid to Ending Need

2. A. How are you measuring progress toward achieving your commitments? Only the categories selected by the organisation will be seen below.

☒ Through existing, internal systems or frameworks for monitoring, reporting and/or evaluation.

B. How are you assessing whether progress on your commitments is leading toward change in the direction of the transformation?

- ☒ Buy-in
- ☒ Field conditions, including insecurity and access
- ☒ Funding amounts

B. How are these challenges impacting achievement of this transformation?

Local groups lack resources, and usually look to the West for funding. WEA's program emphasizes use of local resources, which confronts the traditional dependence on Western resources. This slows progress and leads to drip outs, but groups that continue develop more sustainable actions.

1. Highlight the concrete actions taken between 1 January – 31 December 2017 to implement the commitments which contribute to achieving this transformation. Be as specific as possible and include any relevant data/figures.

The Sendai Framework is incorporated into the resilience, disaster reduction, and creation care work of the World Evangelical Alliance (WEA). The faith community contributions in the Sendai framework are very limited, from WEA's view, so its work uses the framework as a starting point and engages people in working through how to build on this.

Core Commitments

Commitment	Core Responsibility
Commit to enable coherent financing that avoids fragmentation by supporting collective outcomes over multiple years, supporting those with demonstrated comparative advantage to deliver in context.	Change People's Lives: From Delivering Aid to Ending Need Invest in Humanity

1. Highlight the concrete actions taken between 1 January – 31 December 2017 to implement the commitments which contribute to achieving this transformation. Be as specific as possible and include any relevant data/figures.

When working with national alliances the World Evangelical Alliance (WEA) avoids acting as a source of resources, focusing instead on recognizing local assets and developing creatively from local resources. Further, WEA teaches that external assets can have a corrupting effect on local institutions, best avoided by using external assets in ways that do not create long term dependence.

In 2017 WEA convened groups in many Global South countries where we taught methods for recognizing local assets and how to build upon them.
